# 98 Degrees, Christmas Wish

Christmas ain't the same...
(Oh, girl)
Christmas ain't the same without you...
Waiting for the day I see you again

It's Christmas night
I'm by the fireside
Wishing that you and I
Could share our love one last time
And baby, I need you near me
Right here with me for eternity (oh oh)

Exchaning gifts of warmth and tenderness
Holding you close is my Christmas wish!

Chorus:
Christmas ain't the same without you
It just doesn't feel like it used to
Waiting for the day I'll see you again ('til I see you)
I hold my breath and pray to the stars for you 'til then

Baby I, made some mistakes that I
Really regret inside (why can't we get one last chance?)
Aww... I loved you girl
With all of my heart!
Right from the start
Thought we'd never part (oh no)

Remembering your touch and your eternal bliss
That is my only Christmas wish!

Chorus (2x)

(Oh no no no)
I hold my breath and pray to the stars for you 'til then
(Oh no!)
Christmas ain't the same without you...
The same...

Chorus (2x)
