A Lifelike Story, We've Got The Night

When the clock strikes 12 its time to go
Where were going we dont know
Well know it when we get there
That its where we wanna be
Cause tonights the night to cross the line
Were going crazy
Say it together now lets all break
Out tonight dont try and stop us
Weve got the night
Its time to break the rules
Look out watch out were coming through
Forget about what they told us to do
Tonight were gonna break the rules
We dont care we look like fools
We dont care whats going on
There is no right or wrong
Tonight this is our time
Weve been cooped up for to long
Say it together now lets all break
Out tonight dont try and stop us
Weve got the night
Its time to break the rules
Look out watch out were coming through
Forget about what they told us to do
Theyll make them, well take them, then well break them
Theyll make them, well take them, then well break them
Say it together now lets all break
Out tonight dont try and stop us
Weve got the night
Its time to break the rules
Look out watch out were coming through
Forget about what they told us to do
Say it together now lets all break
Out tonight dont try and stop us
Weve got the night
Its time to break the rules
Look out watch out were coming through
Forget about what they told us to do
