# A Teens, Shangri la

(Dhani)
We got it going on
I can't tell right from wrong
You can say that when kiss we get lip sync
(Amit)
I know it's getting late
but like a twist of faith
My clock stops when I'm with you
(Marie)
Though Time is ticking way to fast
We can make this moment last
I don't want the night to end
(All)
I can take you to my hideaway
My Shangri La
My Shangri La
You and I will see the break of day
In Shangri La
In Shangri La
(Sara)
Come on lets roll the dice
The look up on your eyes
Saiz your mind's made up
You don't have to think twice
(Marie)
So whats it gonna be
Will there be you and I
Wanna try to make you see
(Sara)
That time is ticking way too fast
We can make this moment last
I don't want the night to end
(All)
I can take you to my hide away
My Shangri La
My Shangri La
You and I will see the break of day
In Shangri La
In Shangri La
(Marie)
You really make my head spin
Don't know where you and i begin
But it's not like I care
(All)
I can take you to my hide away
My Shangri La
My Shangri La
You and I Will see the break of day
In Shangri La
In Shangri La
I can take you to my hide away
My Shangri La
My Shangri La
You and I Will see the break of day
In Shangri La
In Shangri La
I can take you to my hide away
My Shangri La
My Shangri La
You and I Will see the break of day
In Shangri La
