Breathe Carolina, Blackout

Caught up and I can't feel my hands
no need to chase.
Can you relate? Can you keep up the pace like you're
dying for this?

And when you say "I'm not okay"
I left my phone in the cab
now you can't get me.

I'm only getting started
I won't blackout
This time I've got nothing to waste
Let's go a little harder
I'm on fire
I won't Blackout
I'm on my way
I'm only getting started

And I can't see your face
Cigarette the wrong way
inhale to the top of my lungs
I've been dying for this

And when you say "I'm not okay"
I left my phone in the cab
now you can't get me

I'm only getting started
I won't blackout
This time I've got nothing to waste
Let's go a little harder
I'm on fire
I won't Blackout
I'm on my way
I'm only getting started

I won't blackout
This time I've got nothing to waste
Let's go a little harder
I'm on fire
I won't Blackout
I'm on my way
I'm only getting started

This won't stop til I say so (x3)
Going and going and going and going and go!

This won't stop til I say so (x3)
Going and going and going and going and go!

I'm only getting started
I won't blackout
This time I've got nothing to waste
Let's go a little harder
I'm on fire
I won't Blackout
I'm on my way
I'm only getting started

I won't blackout
This time I've got nothing to waste
Let's go a little harder
I'm on fire
I won't Blackout

I'm on my way
I'm only getting started

This won't stop til I say so (x3)
Going and going and going and going and go!

I'm only getting started

This won't stop til I say so (x3)
Going and going and going and going and go!

I'm only getting started
