Admiral Freebee, There's A Road (Noorderlaan)

first they teach you how to walk
but you really wanna run
they tell you how to swim
but you don't know how it feels to drown
so back for an (?)
cos you're life has only just begun

here you've got your victory
go ahead and take it, i don't need it
cause there's a road out in the north
yeah i took it a several times
and i might take it tonight

there's a dance i used to dance
but they don't play that kind of song no more
and i lost my enthousiasm
in the messes when i was four
call it the most legendary way
for a man to slam the door

here you've got your victory
go ahead and take it, i don't need it
cause there's a road out in the north
yeah i took it a several times
and i might take it tonight

here you've got your mystery
here you've got your hysteria
here you've got your victory
go ahead and take it, i don't need it
