Deftones, Nightrider

you move like I want to
to see like your eyes do

we are downstairs where
no one can see
new life break away

tonight I feel like more
tonight I

you make the water warm
you taste foreign

and I know you can see
the cord break away
cause tonight I feel like more

tonight I feel like more
tonight I feel
feel like more

you breathed
then you stopped
I breathed then dried you off

and tonight

I feel like more

tonight
