Dinosaur Jr., Watch The Corners

Every morning came
I don't like that you can hide in
We expect the same
but I've no one to confide in
and I want you to be with us
and in time there's no forgiveness
and the plan was set in stone long ago
there's never not a time not to know

Can I run, but you'll be there
disappear it's never fair
it's like a stare
when I call to tell you no
every action going slow
can I whisper all alone
can I find it far from home
there's a time to make you move
all at once the time flew

Every morning came
I don't like that you can hide in
we expect the same
but I've no one to confide in
And I want you to be with us
and in time there's no forgiveness
and the plan was set in stone long ago
there's never not a time not to know

Can I run, but you'll be there
disappear it's never fair
it's like a stare
when I call to tell you no
every action going slow
can I whisper all alone
can I find it far from home
there's a time will make you move
All at once the time flew

Hey me watch the corners,
watch me 'cause I know what you done
hey me don't you know
watch me 'cause I'm all alone
