Close To Home, Days Of Our Lives

Slow down, slow down.
Do you remember?
The late days in mid-December,
Couldn't wait for the summer
to come our way,
(Let's sleep these nights away.)
Passed out on the couch again,
Long nights with all the friends,
We had this world in the palm of our hands.

These are the days we won't forget.
(We won't forget.)
Try to remember all the memories kept,
Keep your eyes to the days ahead,
These are the days we won't forget.

Let's break out,
tonight, in the city street lights,
No direction but these moonlit nights.
These stars are shining bright,
(and we feel alive)
We'll shut this city down,
Another night out, and we'll burn it
to the ground.
These are the days,
These are our days and we know.

These are the days we won't forget.
(We won't forget.)
Try to remember all the memories kept,
Keep your eyes to the days ahead,
These are the days we won't forget.
