Eddy Arnold, I Want to Go With You (RCA Victor)

I wanna go with you to that other world
The one your love takes me to I wanna go with you

I wish I were glass so you could see through
Then you'd know before you ask that I wanna go with you

I wanna go with you...

You take me away to a world I never knew
But what else can say I wanna go with you

I wanna go with you...
The one your love takes me to I wanna go with you
