Ektomorf, I Know Them

I see the world and it's full of hate
Around me hypocrites and I know them
They want to take away my emotions
But I resist
I destroy them

I know them

Great future, safe life, money, abundance
They promise everything but it's bullshit
I'm not a motherfucker ignorant
I will strike
I will fight

They cannot take my life
They cannot stop me
They cannot take my rights
No

They cannot control me
They cannot change me
The cannot repress me

No
Never!!

I know them

I go ahead, never never turn back
Live your fucking life and give me respect
I have my life and it's only mine
I will strike
I will fight
