Elisa, City Lights

Get back on the road
Turn those headlights on
You know it's still dark
And a long way to your home
Come on don't give up
You've got to hold on
You'll know what to do if
you'll know what you want

Go through these city lights
You don't recognize
'Cause you don't belong here
You don't belong here
But here you found his heart

Fight for what you want
You got to take care
Look after your sisters and brothers
It's such a small world
They keep saying
It's such a small world
But it's enough to feel lost
And wander without love
Think without a heart
And survive without a soul

Go through these city lights
You don't recognize
'Cause you don't belong here
You don't belong here
But here you found his heart
Here you found his soul
He gave you all his love
You'll never forgive yourself
You'll never forgive yourself
If you let him go

If you let him go

If you let him go

If you let him go

If you let him go
