Damned, Shut It (Die Krupps Mix)

Every time I talk to you
It's plain to see it's always indecision
Plain as all the faces that you know
Always turn their back on you

And every time you open up your mouth
Why don't you shut it, shut it, shut it, shut it

You play around with my heart
Leaving me opened up and bleeding
You laugh at me but it's there to see
I'm not going to take this thing you're laying down on me

When you gonna get rid of those demons that you hide
And shut it, shut it, shut it, shut it

Every time I talk to you
It's plain to see it's always indecision
Plain as all the faces that you know
Always turn their back on you

Every time you open up your mouth
Shut it, shut it, shut it, shut it, shut it
Shut it, shut it

When you gonna get rid of those demons that you hide
Shut it
