Amy Jo Johnson, Julia Roberts

I wanna be Julia Roberts in the movies
I wanna make you laugh
Make you cry
Make you wanna be me

And I want to steal
All of her beautiful appeal
And wrap it up
So nobody else can see

That's the truth
Them are the facts
I'm a self obsessed
Little brat

That's the deal
I've got no couth
It's a sort of disease
From my unrequited youth

And I wanna die
Right here on Hollywood time
So everyone and their mother
Will remember me

And I'm gonna slap your tears
All over my fears
Like a bandaid
And cover the lonely, only truth

I wanna be loved
I wanna be loved
I wanna be loved
I wanna be loved

I wanna be loved
I wanna be loved
I wanna be loved
I wanna be loved

I wanna be loved
I wanna be loved
I wanna be loved
By everyone

That's the truth
Them are the facts
I'm a self obsessed
Little brat

Unsure about that line
