<lyrics>
Everyone wants telepathy The desire of that time stirs

I love your voice I want to make it resound in my heart
Can I make you sympathize I wonder

Let's go!

Pipopapo Telepathy Take lessons and things away from here
Pipopapo Telepathy Preparing true love is complete

The limit of truly precious words I want to come to rely on the invisible wavelength
It collects in the depths of your heart When I spit out the candy
I can hear your true voice

Absolutely!
In my heart the incomplete work of love melody
I continue to sing but it doesn't reach you

I love your voice I want to make it resound in my heart
Can I make you sympathize I wonder

Let's Go!
Pipopapo Telepathy Take lessons and things away from here
Pipopapo Telepathy Preparing true love is complete
Ding Dong Ding Dong the chime tells us when time is up
My heart does not waver Can I reach tomorrow?
