# Dead Moon, Play With Fire

Well you got your diamonds
And you got your pretty clothes
A chauffeur drives your car
You let everybody know
Don't play with me
You're playin' with fire
Her old man took her diamonds
And tiara's by the score
Now she gets her kicks in steadly
Not in knights bridge anymore
Don't play with me
You're playin' with fire

Well you got your diamonds
You will have some others
But you better watch your step girl
Or start living with your mother

Don't play with me
You're playin' with fire
Don't play with me
You're playin' with fire
Don't play with me
'cause you're playin' with fire
