Anna Cyzon, Love Me (Eurovision 2010 Poland)

1. I just want to take your love and wear it like a fur coat
not that i condone the slaying of animals but, you know
a metaphor to keep me warm you're love is nice my souls on ice
your the fire i can be cold, but you already know
get over here don't waste another minute
press your body up against mine to the rhythm
Rock me slow and then go low I want it all and then some more
you know what i want

Ref. I want you to love me, love me, baby
over and over
love me, love me completely
over and over
little by little, bit by bit
pull you closer to my heart inch by inch
love me, love me, baby over and over again

2.Stop talking lets start walking pick me up i wanna go dancing
swing me round the block to the back seat of your car for some romance
the night is long the winds are wild
I'm like an uncontrollable child
no one can claim me, only you can try to tame me
stop talking don't waste my time
pull your body over next to mine
don't want your money honey i just need your company
give it to me its all that I want

Ref. I want you to love me, love me, baby
over and over
love me, love me completely
over and over
little by little, bit by bit
pull you closer to my heart inch by inch
love me, love me, baby over and over again

Why don't you get over here and quit wasting your time
i just want your body pressed up against mine
you know what i want

Ref. I want you to love me, love me, baby
over and over
love me, love me completely
over and over
little by little, bit by bit
pull you closer to my heart inch by inch
love me, love me, baby over and over again
