Antigone Rising, Waiting, Watching, Wishing

Antigone Rising
From The Ground Up
Waiting, Watching, Wishing
Here we go again looking for a ride got a smile to hide all the rain in my eyes.
Got a gay stuffed filled with love and goodbyes.
I don't care if I never grow up don't want to shrink in a suit don't want to live just to suck someone b

Each time I think back to my hometown my sad skinny self standin' around waiting, watching, wishi
Hoping, searching and praying for something fantastic.

Chours:
We've been here before
Stood up at the door
Holding secrets we'd never say
Hey don't bang your head
Feel the breeze instead
Fear no shadow don't feel no shame
Hey hey hey...

All that it took was one punch in the face to make me wanna steal that guy's car in the first place.
Grass on suburban lawns never looked so black.
Slip through the window, step through the door hand me your hairpin your knees to the floor.
Head to the highway, we're never turnin' back, never turnin' back, never turnin' back...

Car by car and line by line someday you'll find you're place and I'll find mine.
In a new time and brand-new town...get up get up get up get down!

On and on and on we go.
We've got no radio so we sing songs we know.
For miles and miles of open road get up get up get up let's go!

(Chorus)

Get up get up get up get down
Get up get up get up get down
Get up get up get up get down
Get up get up get up get down
