Antonio Neal, So Good

I never knew that You were truly real
I never knew how love could really feel
Until that wonderful moment of moments
I was searching for a long time
I was hurting for a long time
The empty place You've filled in my life

If you were like me, just looking for somewhere to be
The you've come to the right place
If you were like me, longing for new air to breathe
Then love is waiting to fill you up

God is so good
Know that love's alright
God is so good
Let love change your life

I felt like I was on the outside
I wore my feelings on the outside
I didn't know any better (ooh nooo ooh)
You introduced me to my family
So many people in this family
Like a summer's reunion (yeah, yeah, yeah)

If you were like me, just looking for somewhere to be
The you've come to the right place
If you were like me, longing for new air to breathe
Then Jesus is waiting to fill you up

I was looking for love in all the wrong places
I didn't love for love (but I was on Your mid
So glad I was, so glad I was
I just wanted what was real (no time for playing)
You showed me You were real
Now I know for myself yeah
That You've been so good
