

16 Volt, Happy Pill

You are the one and only
You make this union holy
You drain the world so lonely
I'm overcome by the way we feel

Take
Build
Losing everything
Pain
Stay
Through this again
Wait
Shape
Turn into you

Safe
Place
I'm down in my head
I watch the light reject you
I beg the truth from its hue
I watch your shape move circles
I'm watching its spell play out

As I feel
Take
Build
Losing everything
Pain
Stay
Through this again
Wait
Shape turn into you

Safe
Place
I'm down in my head
I need you now
I'm down in my head
Happy pill is fixing my head
