

16th Avenue, State Of Horror

California, state of horror
took that last thing of the life they leed
and there dean is inside your head
they're laughing uder the hospital bed
they wont let you see
that you cantfind your self
like no one else
embrace the world
with love
you are, too young fall
too young to follow
look at those pills
not worth the swallow
dont be the same
find your true face
paranoya lookin for you
its seeping out your skin
theres whisper whisper everywhere
all the people point and stare
it feels like you cant win
but you cant tune it out
and drown the town
and lead the lights
of home
you are, too young fall
too young to follow
look at those pills
not worth the swallow
dont be the same
find your true face
you are, too young fall
too young to follow
look at those pills
not worth the swallow
dont be the same
find your true face
so change your ways
and change your face
you'll look the same
when you play the game
so change your ways
and change your face
you'll look the same
when you play the game
so change your ways
and change your face
you'll look the same
when you play the game
find yourself
and no one else
embrace the world
with love
you are, too young fall
too young to follow
look at those pills
not worth the swallow
dont be the same
find your true face
you are, too young fall
too young to follow
look at those pills
not worth the swallow
dont be the same
find your true face
