Eisley, Telescope Eyes (Old Version)

Telescope Eyes

Oh you humor me today
Calling me out to play
With your telescope eyes, metal teeth
I can't be seen with you, you see

(chorus)
Please don't make me cry
Please don't make me cry
I'm just like you, I know you know
I'm just like you, so leave me alone

I wonder, why cant you see
You're just not near enough like me
With your telescope eyes, metal teeth
I can't be seen with you

(chorus x2)
Please don't make me cry
Please don't make me cry
I'm just like you, I know you know
I'm just like you, so leave me alone

(bridge)

(chorus x2)
Please don't make me cry
Please don't make me cry
I'm just like you, I know you know
I'm just like you, so leave me alone

Oh, you humor me today
