Elvis Costello, You Turned To Me

You turned to me
And all at once
I knew I was betrayed
My eyes met yours just down the darkened path
Where both of us had strayed
Nothing good can come out of this
I know it may not be
But just then you turned to me

And I thought for a moment
Like the fool that I've become
I might be the one
To turn these lights back on
Just as I began to say
It's never worth the price you pay
I was going there anyway

You turned to me
And all at once
I knew that you had seen
How I was lost in something quite like love
When all I did was dream
Now as evening becomes the dawn
I wonder where you'll be
And just why you turned to me
