Grammatrain, Getaway

If I could ride this slide into forever
What would I give to getaway
That pain, that stain,
Seems like forever
What would you give to getaway

I know this is how I could be over you
You know this is not another waste of time
All this holding on cant be wrong
Just come back to me and I am not alone

You had your man your fan but not forever
You should have let him
You should have let him getaway
But your pride made you ride on this slide by his side till his lies
Seemed like forever
What would you give to getaway

I know this is how I could be over you
You know this is not another waste of time
All this holding on cant be wrong
Just come back to me so I am not alone
To getaway
To getaway
To getaway
To getaway

I know this is how I could be over you
You know this is not another waste of time
All this holding on cant be wrong
And I know this is how I could be over you
You know that I am not another waste of time
All this holding on cant be wrong
If you come back to me so I am not alone
To getaway
