Faber Drive, Sex and Love

Pumpin' on my sleeve
Heart that barely beats stallin'
Uh oh
Foatin' facin' down
Sea of broken vows
Drownin'
Uh oh
Blow after blow and I'm starting to see why
Better alone than be bruised by your dark side
Down to the bone you're the knife that'll cut right through
Sex and love don't feel the way I do
Sex and love's not real when it's from you
Solely for effect
Mornin' make up sex is hollow
Uh oh
Burnin' to the ground
House that used to stand so solid
Uh oh
Blow after blow and I'm starting to see why
Better alone than be bruised by your dark side
Down to the bone you're the knife that'll cut right through
Sex and love don't feel the way I do
Sex and love's not real when it's from you
Blow after blow and I'm starting to see why
Better alone than be bruised by your dark side
Down to the bone you're the knife that'll cut right through
Sex and love don't feel the way I do
Sex and love's not real when it's from you
Sex and love don't feel the way I do
Sex and love's not real when it's from you
Sex and love don't feel the way I do
Sex and love's not real when it's from you
