Jack Bruce, Politician

Hey now baby get into my big black car
I want to show you
What my politics are

I support the left tho' I' leaning to the right
I'm just not there
When it's coming to a fight

I'm a political man yes I practice what I preach
I'm a political man yes I practice what I preach
So don't deny me baby
Not while you're in my reach

Get baby, get into my big black car
Hey baby, get into my big car
I want to just show you
What my politics are
