Freddie Hart, What Took You So Long

I can't stand you out of my side say what took you so long
Since you been all night what took you so long
I've lost my mind a dozen times since you left me alone
And you been gone at least a minute what took you so long

Have you seen a baby sparrow fall helpless to the ground
Unable to fly back and afraid to be found
Well that's me that's me without you whenever you are gone
And you been gone at least a minute what took you so long
[steel]
Have you seen a baby sparrow...
