

2 Chainz, Everything I Know

Everything I know, everything I know

The streets have taught me everything I know /7x
The streets have taught me everything (I know)

With my back against the wall ain't no pressure
When the defense really on, ain't no test
Pull up real slow in a taxi
Gunshots turn em into athletes
I was hungry for a mil I gotta have it
Drove a couple couple cars up the mansion
Foreal at one time
Smoked a whole seven sitting in the traffic
And niggas couldn't beat me if they practiced
Used to use my safe for a mattress
Used to use my mattress for a safe
See I could count a hundred thousand backwards
And I'm just tryna get it every day
They feigning for the trappers and the rappers /3x
And now your mall on that, shawty what's happenin'

The streets have taught me everything I know /7x
The streets have taught me everything (I know)

Everything I know
Used to hustle at the store
Used to get it with my bros
Used to bet on tenfold
Now I'm all around the coast
I be all up on the pole
I be smokin' on that gas
It might make them bitches choke
Old school with the rallies
Used to meet them up at rallies
So it's fuck your P
The streets have taught me how to get it (get it)

The streets have taught me everything I know /7x
The streets have taught me everything (I know)
Everything I know
