Girls in Hawaii, Summer Storm

// Unsure passages are marked with ? around them.

Oh my girl, are you hanging on?
think about you all the time
i see a shape dancing all around
keep the taste of the summer time

there we heading straight to a distant tent
we chopped all of the trees to build a house
even found some fruits but they were too small
and it kept on rolling on and on

?
your son was wake up in this loud
just i was sleeping on the ground
?
Could have been a fairytale, but you know how it ends

Oh Girl i didn't realize
?and i'm throw it for aside?
All made of Stone, we were all alone

but now
and that i lost you
i just want to see you whole/home ?
i just want to see you whole/home ?
to feel the stranger you become
i just want to see you whole/home ?

Again say how, i don't understand
why my love was ????
we were making love or you turn the stroke
we lost the ways into the storms

It's the end of story, you need to close
full of waste but its full of home
give it on to you my organeum girl
and you know will we ?sit tight?

and now it's all gone, but now it's all gone 3x

now that i lost you
i just want to see you whole/home ?
i just want to see you whole/home ?
to feel the stranger you become aahh
i just want to see you whole/home ?
