Beatsteaks, Cut Off The Top

check the meaning don't stop the teasing now
watch the ceiling crashing down to the floor
if you want it get it coming after dark
guess we'll make it faster than you ever thought

climb this mountain to cut off the top
damage
first i swallow then i throw up
damage
come and try me falling apart
damage
climb this mountain to cut off the top
damage

stripped to the bone
ready to go
you can never tell getting hell from being well so let me spell
it's me against the world

i see at least you live by the rule
Now that you're stuck to the groove

stop the fuss now pray for love
raise your head now say goodbye
a sudden rush covers up my doubts
you never know how the drugs work out
come down watch the whole thing explode
damage
