Bell Book and Candle, Hurry up

You know, what I
like and need, but it's over
you know, what I want and feel, but it's over
my heart is an open book
don't need to read between the lines
to leave tears up all of me
yes I believed in every day
(chorus:)
get it and hurry up, get it and hurry up,
get it and hurry up and go
get it and hurry up, get it and hurry up,
get it and hurry up and go
you know, what I give and take, but it's over
you know, what I mend and break, but its over
my thoughts always close to you
what I caressed was by my side
to break will be hard on me
yeah I will save our everyday
(chorus)
forgive, that I'm on my way, but its over
without you all night all day - now it's over
our love sealed in history
got my respect in every way
don't turn you around no more
no, don't you ask for me to stay
(chorus)
