Guy Sebastian, Taller, Stronger, Better

I've met the darkness
Been held by the night
Lonely was there in my arms
I've been with broken
I've stared in her eyes
Emptiness left me this scar

But I heard your voice
Calling me out of the cold

CHORUS:
And now I can live again
I have been chosen to run with the wind
I can go higher I know I will soar
I'm taller I'm stronger I'm better than before

I've walked through fire so I could become
All that you said I could be
And now my breath has a reason
My sky has a sun
Cause in you Ive found all that I need

Your touched revived me
It was your love that opened my eyes

CHORUS:
And now I can live again
I have been chosen to run with the wind
I can go higher I know I will soar
I'm taller I'm stronger I'm better than before

I broke through the rain
Stuck through the storm
Now I know I remain
And I can do the impossible
I can reach the unreachable

Its my time
I will rise and live

And I can go higher I know I will soar
I'm taller I'm stronger I'm better than before

CHORUS:
And now I can live again
I have been chosen to run with the wind
I can go higher I know I will soar
I'm taller I'm stronger I'm better than before
