Heatmiser, Flame!

i always find out too late
i always find out too late
you wouldn't believe what i'm on
in all this time i found nothing to live without it for

chorus:
help me only
help me only
help me get on my feet
i feel like turning me down
i feel like turning me down
good to see ya anne maria (?)

i never was anything
can't be happy or unhappy
you wouldn't believe what i'm on
in all this time i found nothing to live without it for

oh, what are you now?
oh, what are you now?

what's wrong with you little flame?
what's wrong with you little flame?
i been trying to cool off for so long
in all this time i found nothing to stop real pain

chorus
