Blackpool Lights, It's Never About What It's About

A best friend and an honest man
Isn't that what you wanted
Your dishonesty and lack of modesty
Were the traits that you flaunted
You're so emotional
I gave you room to grow
Then you act like a child
I didn't stop you, I could never do that

It's never about what it's about
Even if I knew you'd still walk out

When I stare at you I can see right through
And it doesn't look pretty
Did you ever care, you were never there
I won't give you my pity
You started losing touch
It didn't hurt as much
Until I showed you the door
You couldn't stop me, you could never do that

It's never about what it's about
Even if knew you'd still walk out
We can sit and play this came all night
Nothing I could say would make things right
It's never about what it's about

We kept the downstairs neighbors up till three
With your complaints of my mediocrity
The time I've wasted on you my dear
It was just another year

Are we having fun with a loaded gun
Cause that's what we're doing
Your a pessimist for the things you missed
But it's my life you ruined
I'll make an easy bet a room is up for rent
If this is how it will end
There'll be nothing....There'll be nothing left

Chorus
