Kisschasy, Ione Skye

I went out to a last night to a place where the beautiful give death stares,
So cold you could feel the ice form on your bones.
Dressed up like you're in a movie,
Your effort is amusing tonight but you'd look better if I was blind.

Didn't you enjoy your self?
They held you up and put us down.
Let me know the next time you'll be here so I can stay at home.

You're living like you're on TV,
Like a protected species.
I would love to see you when you're old.
Just like winter roses in bloom I'll die before im like you.
In time they will all know just how hard you tried.

Didn't you enjoy your self?
They held you up and put us down.
Let me know the next time you'll be here so I can stay at home.

Didn't you enjoy your self?
They held you up and put us down.
Let me know the next time you'll be here so I can stay at home.

Stay there forever in your place where your friends are kinder to your face.
Glamour is all you have and I'm sorry that your life's that bad.
Stay there forever in your place where your friends are kinder to your face.
Glamour is all you have and I'm sorry that your life's that.
I said you'll be here so I can stay home.
