Blood Red Throne, Altered Genesis

Bestial lustful killing spree
The killer breed appears
Inaudible screams from abattoir
Ripsaw work in progress
Thudding sound of pieces of meat hitting the floor
Instrument made to dismember
Methodical and deliberate
Sadistic human butchery
Involuntary gutted and disfigured
Sill present consciousness
Images of horror and torment
Countless bodies bled white
Tissue released from the subcutaneous fat
History or immense truncation
No alleviation for their suffering
Repeated wrenched anatomy
Accumulated body parts
Limbs amputated as a keepsake
Shredded corpses piled up high
Life annulment genocide
Sweeping footsteps on a pavement covered in blood
Deranged humming and clinging of tools
Decapitation mess
Scattered brains
Guttural fresh
Strange lucidity
Human plague redemption
Depurate the world by manslaughter
