

# 28 Days, The Bird

Hurry up and beat the rush  
be the first to cut us down  
that would seem to be the cool thing to do  
you don't know me so step the fuck back kid  
don't assume to judge me or my crew  
i don't have to run anything by you  
Talk your shit and i'll stay true  
mad love to those choose  
to watch our backs  
we won't forget it  
we're stoked that we met  
we're glad you care, you were  
there for us when we needed you most  
we couldn't have made it through without you there  
mad respect goes out to you  
You're what i mean when i say crew  
I remember much more good than bad  
i so love what i do  
to the bad i've got something for you  
i've friends and people that i love and  
love me back  
no matter what you say no matter  
you try to do  
So hurry up and beat the rush  
be the first to cut us down  
that would seem to be the cool thing to do  
we never liked you anyway  
sip your cunt latte  
and shove it up your fukin  
ass when your through  
To the bad i've got something for you  
see i've got friends and people that  
i love and love me back  
no matter what you say no matter  
what you try to do.
