Michael Ball, My Arms Are Strong

(Brian Spence)
Come to me my darling child
Is this world upsetting you
I'll hold you in my arms a while
Nothing's so bad
Don't you know that I will protect you
Protect you

My arms are strong,
I will carry you home forever
My arms are strong,
I will carry you home forever
Some have let you down I know
No one hurts like friends
So wear my love like winter clothes
And weather the storm
And weather the winter again and again
My arms are strong,
I will carry you home forever
My arms are strong,
I will carry you home forever

And if you find one day
You're not feeling right
And if you wake up
And you just can't sleep at night
And if you turn around
And no one's there, no one's there
I'll be yours
Forever and ever
Nothing's so bad
Don't you know I will protect you, protect you
My arms are strong,
I will carry you home forever
My arms are strong,
I will carry you home forever
Carry you home
My arms are strong,
I will carry you home forever
