Michael Learns To Rock, I'm Gonna Be Around

It's been so long since we took the time
to share words from deep inside us
We're in our own world spinning our wheels
but you know how I feel
Well since the first time I took your hand
my love for you has just been growing
You always seem to understand
You know how I am
Chorus:
I'm gonna love you til the end
I'm gonna be your very true friend
I wanna share your ups and downs
I'm gonna be around
When you're alone and I'm away
don't be sad don't be afraid
I'm gonna turn my thoughts to you
like I always do
Chorus:
I'm gonna love you til the end
I'm gonna be your very true friend...
Catch you when you fall
Hold you when you're down
Sharing every moment
I wanna show you all I do
I believe I've found a miracle in you
Chorus:
I'm gonna love you til the end
I'm gonna be your very true friend...
