# Cassandra Wilson, Warm Spot

on my way on my way
on my way on my way
on my way
back there again
back to the warm spot in the middle of your soul
I'll be there I'll be there I'll be there I'll be there
if I have my own way
oh, I been running sideways
skipping 'round the holes
I have made my mind up I'm gonna have him
anyway that I can
and so I'm on my way
on my way on my way
on my way on my way
back there again
back to the warm spot
in the middle of your soul
coppercolored conjure man
wave your magic wand and rescue me
I've been searching far and wide
for someone to care for me
you're my angel in the morning light
you're my devil in the dark of night
I've been searching far and wide
but you've been out of sight, out of sight
on my way on my way
on my way on my way
on my way
back there again
back to the warm spot in the middle of your soul
back there again
back to the warm spot in the middle of your soul
(devil in the dark come back)
(devil in the dark come back)
you are the one true...
chocolate-colored conjure man
wave your magic wand and rescue me
I've been searching far and wide
for someone to care for me
you're my angel in the morning light
you're my devil in the dark of night
I've been searching far and wide
but you've been out of sight, out of sight
I want to give you all i can give you
leave no trace behind
I want to give you all i can give you
leave no trace behind
I want to give you all i can give you
leave no trace behind
I want to give you all i can give you
leave no trace behind
