Mr. Big, Runaway - Sahlene

Did somebody dare to tell you what's right
Which colours to wear to laugh or cry
You wanna be fair and maybe you're right
Let's burn our fingers stop the fight

Always driving through the red light babe
Everybody stops but me

Just runaway to the stars
Just runaway 'til you're high enough
I'll be waiting above
I'll make it happen I've tried so hard

How lucky you are your statement in fine
Because what you think is what you find

Always driving through the red light babe
Everybody stops but me

Just runaway to the stars
Just runaway 'til you're high enough
I'll be waiting above
I'll make it happen I've tried so hard

Just runaway to the stars
Just runaway 'til you're high enough
I'll be waiting above
I'll make it happen I've tried so hard

Did somebody say it's gonna be easy
Til you get to where you do belong
Your newly opened mind explains the reasons
Why you have to carry on

Just runaway to the
Just runaway to the stars
Just runaway 'til you're high enough
I'll be waiting above
I'll make it happen I've tried so hard

Just runaway to the stars
Just runaway 'til you're high enough
I'll be waiting above
I'll make it happen I've tried so hard

Just runaway to the stars
