CeCe Winans, A Place Like This

Let's Go!

[Intro]
Welcome to paradise, I know you wanna place like this
You wanna place (uh huh), C'mon (yeah)
Grits and CeCe (Let's Go!)
We wanna place like this (uh huh)
Do you wanna go?

[Verse 1]
I had to get away, find some time to pray
And assess my life, as good as it can be
It's sadly imcomplete with all this pain inside
Now it's so beautiful here any time of year (any time of the year)
All the waterfalls, and the streets of gold
And those angels I hear singing
I wanna

[Chorus]
I wanna place like this, that I can call my own (call my own)
I wanna place like this, where I will never be alone
I wanna place like this, where I can finally be free (finally be free)
I wanna place like this, made especially for me

Heaven is where I be, yeah

It's paradise, I know I wanna place like this
Where all your dreams come true
Do you wanna go?

[Verse 2]
There way upon a hill, that's where joy lives, with happiness and
Down milk and honey way lives a brighter day
Next to love overflowing
A picture perfect scene, so calm and sweet
Where paradise begins, life will never end
And those angels I hear singing

[Chorus 2]
I wanna place like this, that I can call my own
I wanna place like this, where I will never be alone
I wanna place like this, where I can finally be free
I wanna place like this, yeah this is where I wanna be

[Chorus]
I wanna place like this, that I can call my own
I wanna place like this, where I will never be alone
I wanna place like this, where I can finally be free
I wanna place like this, made especially for me

I wanna place like this for you and me where we can be free
I can't wait to dance through the waterfalls
And skate through the streets of gold (oh yeah)
I wanna place like this for you and me where we can be free
Can't wait to sing, laugh and play here the bells ring (Let's go) free

[Rap]
Hope your open to focusin' on the afterlife
I am, don't have to ask me twice
Gettin' in, though I paid an after price
Stayed till my way was made
Learned the facts fo life
Play it cool in here, never be alone (place)
You can call a home, spot that's all your own

Be free, Grits and CeCe on point again
It's a bliss my friend in a place like this again

It's where I wanna be, I wanna be (yeah)
It's where I wanna be, I wanna be

I wanna place for you and me (yeah), La la la la la (ooh)
