Chant, I Wanna Love (Like That Again)

A long time ago, I was in love so pure and strong
That nothing anyone said or did could make it wrong
So excited, one touch was ecstasy
And since that touch, I've never been the same
I wanna love like that again
Just want a love like that, ooh yeah
I wanna love like that again
Only a love
I thought of you today and I began to smile
I reminisced on times gone by
And oh, my, my, how we've changed
I can recall the days, the days of sweet surrender
I cherish the joy and the pain, two hearts so tender
Although the path that we walked together, now we walk alone
But now I've grown enough to know, all is fair in love
I guess I really was not enough, somehow your endless love
Has died and oh, my, my, how we have changed
But I wasn't to love like that again
When my lover was my friend
Although you never broke the skin, you live within
Take me back to innocence
I wanna love like that again, yeah, yeah, yeah
I wanna love
I wanna love like that again
I wanna love like I did way back then
When too much was not good enough
One time would not suffice
Oh, if we could turn back the hands of time
Wouldn't that be nice
But we both have grown enough to know
It could never be the same
Too much has changed, endless love has died
And my, how we've changed
But I wasn't to love like that again
When my lover was my friend
Although you never broke the skin, you live within
Take me back to innocence
I wanna love like that again
I wanna love
I wanna love like that again
I wanna love like I did way back then
I'll be waiting here
Take me back to innocence
I wanna love like that again
I wanna love
I wanna love like that again
I wanna love
I wanna love like that again
I wanna love
I wanna love like that again
I wanna love like I did way back then
Can't you help me find that love
Do you remember, well, I can never forget
I've never loved like that in my life before
But life is not over yet
I need a man who is not afraid to give himself completely
His love, his body, his mind, then I'll surrender all that I have
