Kitty Wells, Love Makes The World Go Around

Love makes the world go around around around

Nothing could take its place has been found

Love makes people happy from a king to a clown

Oh yes love makes the world go around

I know a man now he's old spent his all life courting silver and gold

Money was he's the richest man in town inside his lonely mansion no love can be found

Love makes the world go around...

[steel]

Remember the tragedy of a great movie star

She brought joy to millions was worshiped from apart

It seems she had everything was gifted from above

Yet took her own life she had everything but love

Love makes the world go around...

Yes love makes the world go around
