Kylie Minogue, No World Without You

The sweet perfume of flowers in bloom
Remind me of you
But you're more than just a memory
The things that you do to me
If only you knew

I've tried hard, had to be strong
Now I don't know if I can go on

[Chorus:]
There's no world without you
I miss you, my friend
There's no world without you
This can't be the end

Remember the night holding me tight
Just me and you
I remember the day you went away
What was I to do
If you came home, one of these days
Would I hold back or would I say

[Chorus]

I've tried hard, had to be strong
Now I don't know if I can go on

[Chorus]

There's no world without you
This can't be the end
