Chipz, Who U R

"Like the wind will never stay
Like the water, moved away"
Wish you all my life for who you are
There is so much I would tell you
But this night is gone too fast
Who will find the raisers?
The sun sets already fast
Theres no need for talking (talking)
Destiny you may calling
I can see it in your eyes
That love I also feel
Like the wind will never stay
Like the water, lose its way
I will walk with you from now and ever more
Like the stars will meant to be
Like the moon its tracks the sea
I will love you all my life 4 who you are
4 who u r
4 who u r
4 who u r
Its like I know you 4 ever
Heart of me is you
The way your heart is beating
My hard is beating 2
Theres no need for talking (talking)
Destiny you may calling
I can see it in your eyes
That love I also feel
Like the wind will never stay
Like the water, lose its way
I will walk with you from now and ever more
Like the stars will meant to be
Like the moon its tracks the sea
I will love you all my life 4 who you are
4 who u r
Like the sun you will always thirst
Like the sun will always burn
Theres something that left
For eternity
Like the wind will never stay
Like the water, lose its way
I will walk with you from now and ever more
Like the stars will meant to be
Like the moon its tracks the sea
I will love you all my life 4 who you are
Like the wind will never stay
Like the water, lose its way
I will walk with you from now and ever more
Like the stars will meant to be
Like the moon its tracks the sea
I will love you all my life 4 who you are
4 who u r
4 who u r
