Chris And Conrad, Rescue

I've walked through the valley
Been tossed in the storm, yeah
And all of the demons
Were comin for more, yeah yeah
And anywhere I went
I was alone
You came to my rescue
So I can make it home
Chorus:
You got me fallin
More in love with you
You got me wrapped up
I can barely even move
Even the good days
Can fade into black
Yeah I can only change
It happens too fast, too fast, too fast
I never even got a chance
If I was alone, if i was alone
If there was no rescue
I could never even make it home
Chorus
Chorus
When no one could find me
When everyone else had already moved on
You came to reach out
You never gave up on me
Even when hope was gone
Chorus
