October Fall, Hey Hey

Hey hey look kid
You came around again
Didn't think we'd see you, with how things ended back then
Hey hey old friend
I think it's been too long
Grab the guitar, let's sit around, play our favorite song

Our bodies breathe of the city street lights
Lets set our watches, because tonight's the night
Everyone, get out your cameras
Tonight's a night to remember

My heart's in sync with, these constant memories
When I look back, I wish I had more of these
Neverland is just around the corner
I'm done with this getting old

Hey hey look kid
You came around again
Didn't think we'd see you, with how things ended back then
Hey hey old friend
I think it's been too long
Grab the guitar, let's sit around, and play our favorite song

Here we are, in my car, driving under the same lucky stars, that we wished on when we were kids
Let me hear you say
Hey kid I miss this
Hey kid I miss this
Cause I miss this

Hey hey look kid
You came around again
Didn't think we'd see you, with how things ended back then
Hey hey old friend
I think it's been too long
Grab the guitar, let's sit around, and play our favorite song (play our favorite song)

Hey hey look kid
You came around again
Didn't think we'd see you, with how things ended back then
Hey hey old friend
I think it's been too long
Grab the guitar, let's sit around, and play our favorite song (play our favorite song)

Hey hey look kid
Hey hey hey hey hey hey look kid
Hey hey hey hey
