Oi Polloi, 23 Houres

Arrested - beaten black and blue
Confession - beaten out of you
You didn't do it - but you still get the cell
In prison - institiutionalised hell

23 houres - banged up day and night
Beatings - given out left and right
By the screws who want to put you down
Degradation - they rub your face in the ground

How many are imprisoned for a crime they didn't do
Don't think for one minute that it couldn't be me or you
So if you feel you're tempted to just ignore this song
Put yourself in their place and write to right the wrong

How many thousands of people all around the globe are imprisoned for crimes they never commite
