Darling when I look at you,
It always makes me feel real good.
And I know I kinda fell for you,
Like I never thought I would (never thought I would)
And baby when I think of u,
It always brightens up my smile (my smile)
So won't u come on over boy,
And just stay with me for a while,
I love a night...

And baby when I'm feeling down
It's always you that makes me right
It seems like you're the only one that can satisfy my appetite
And even when its pouring rain I can't wait to see your face
(See your face)
Because you bring my sunshine back and you just can't be replaced,
I love a night...

{Christina}
Spending time with you (Yeah yeah yeah)
Makes me feel real good(Uh uh uh)
All my days with you
Makes me say oooh ooh oooooh
(Yeah yeah yeah)

{Charlie "Chuck"}
Now listen
If I spend my days with you
Is timing for me or are you genius
Cause I spend my nights with you
Only if you my man and not a one night stand
I got plans for loving you
I follow your lead cause you all I need
So easy, with that thug in you
Take it slow we gonna pace the flow
I know you're thinking devilish
Cause the girl roll 1-8-7ish
(Murder!) get it back
My lifestyle not my wife style, boy
I only hold mics on the tv,
Hold hands when you need me
Believe me
See be always on guard
But timing makes me love her
G-yeah
So put your ex's in check
They exit, I'm next

Accept it
My time in minds inperfected

{Christina}
Everyday and every night
I can't wait to have you by my side (Have you by my side)
Have you by my side (Have you by my side)
Everyday and every night
I can't wait to have you by my side (Have you by my side)
Have you by my side

Spending time with you (Yeah yeah yeah)
Makes me feel real good (Uh uh uh)
All my days with you
Makes me say oooh ooh oooooh (Yeah yeah yeah)

Spending time with you (Yeah yeah yeah)
Makes me feel real good (Uh uh uh)
All my days with you
Makes me say oooh ooh oooooh (Yeah yeah yeah)
