Orson, Northern Girl

Here she comes
brighter than the california sun
I say girl are you alright?
you know I can't believe
the way you shine tonight
A northern treasure
measure for measure
and I do't know whether
she was heaven sent
but she pays the rent

Everyone she knows
is always telling her
that she could do better
but she don't really mind
'cause we have a good time
when we're together
maybe there is something
in the water
or blame it on the weather
but we're doing fine
just me and my northern girl

There I go
Mr rock and roll
living on the dole
running with the boys -
we'll raise some hell tonight
come on and make some noise !
when we're together
I'm under pressure
we're from different worlds -
me and my northern girl

Everyone she knows
is always telling her
that she could do better
but she don't really mind
'cause we have a good time
when we're together
maybe there is something
in the water
or blame it on the weather
but we're doing fine
just me and my northern girl

She's my northern girl
and we're doing fine

Yeah
